CONTENTS

Vol. 166, No. 1, January 1992

Kidney and Hypertension

I. Intrarenal Hormones and Cellular Function

Hormone receptors and sites of action in the kidney. *A.I. Katz, F. Takemoto and M. Hayashi* 1

Localization of components of the renin-angiotensin system within the kidney and sustained release of angiotensins from isolated and perfused kidney. *T. Inagami, K. Mizuno, M. Kawamura, T. Okamura, D.L. Clemens and K. Higashimori* 17

Macula densa control of renin release and glomerular hemodynamics. *S. Ito, O.A. Carretero, K. Abe, L.A. Juncos and K. Yoshinaga* 27

Localization and regulation of renal receptors for angiotensin II and atrial natriuretic peptide. *P.M. Sexton, J. Zhuo and F.A.O. Mendelsohn* 41

Eicosanoids, mesangial contraction, and intracellular signal transduction. *P. Mene', M. S. Simonson and M.J. Dunn* 57

Functions of ascending thin limb of Henle's loop with special emphasis on mechanism of NaCl transport. *Y. Kondo, K. Kudo, Y. Igarashi, Y. Kuba, S. Arima, K. Tada and K. Abe* 75

Effect of acute and chronic treatment of tin on blood pressure in spontaneously hypertensive rats. *M. Laniado-Schwartzman, N.G. Abraham, D. Sacerdoti, B. Escalante and J.C. McGiff* 85

Roles of renal cytochrome P450-dependent arachidonic acid metabolites in hypertension. *K. Omata, K. Abe, H.-L. Sheu, K. Yoshida, E. Tsutsumi, K. Yoshinaga, N.G. Abraham and M. Laniado-Schwartzman* 93

II. Calcium Antagonist on Renal Function

Phosphoinositide hydrolysis and calcium mobilization induced by vasopressin and angiotensin II in cultured vascular smooth muscle cells. *K. Takeuchi, K. Abe, M. Yasujima, M. Sato, K. Maeyama, T. Watanabe, S. Sato, H. Inaba and K. Yoshinaga* 107

Calcium antagonists and the kideny. *M. Epstein and R.D. Loutzenhiser* 123

The diuretic effect of calcium entry blockade in normals and hypertensive patients. *G.G. Geyskes, B.A.M. Van Schaik, C.A. Gaillard and H.A. Koomans* 135

Renal hemodynamics in canine DOCA-salt hypertension: Effect of calcium channel blockade. *B.G. Zimmerman and P.C. Raich* 147

III. Preservation of Renal Function

Systemic and renovascular hypertension *B. Jackson, L. Franze and M. Whitty* 155

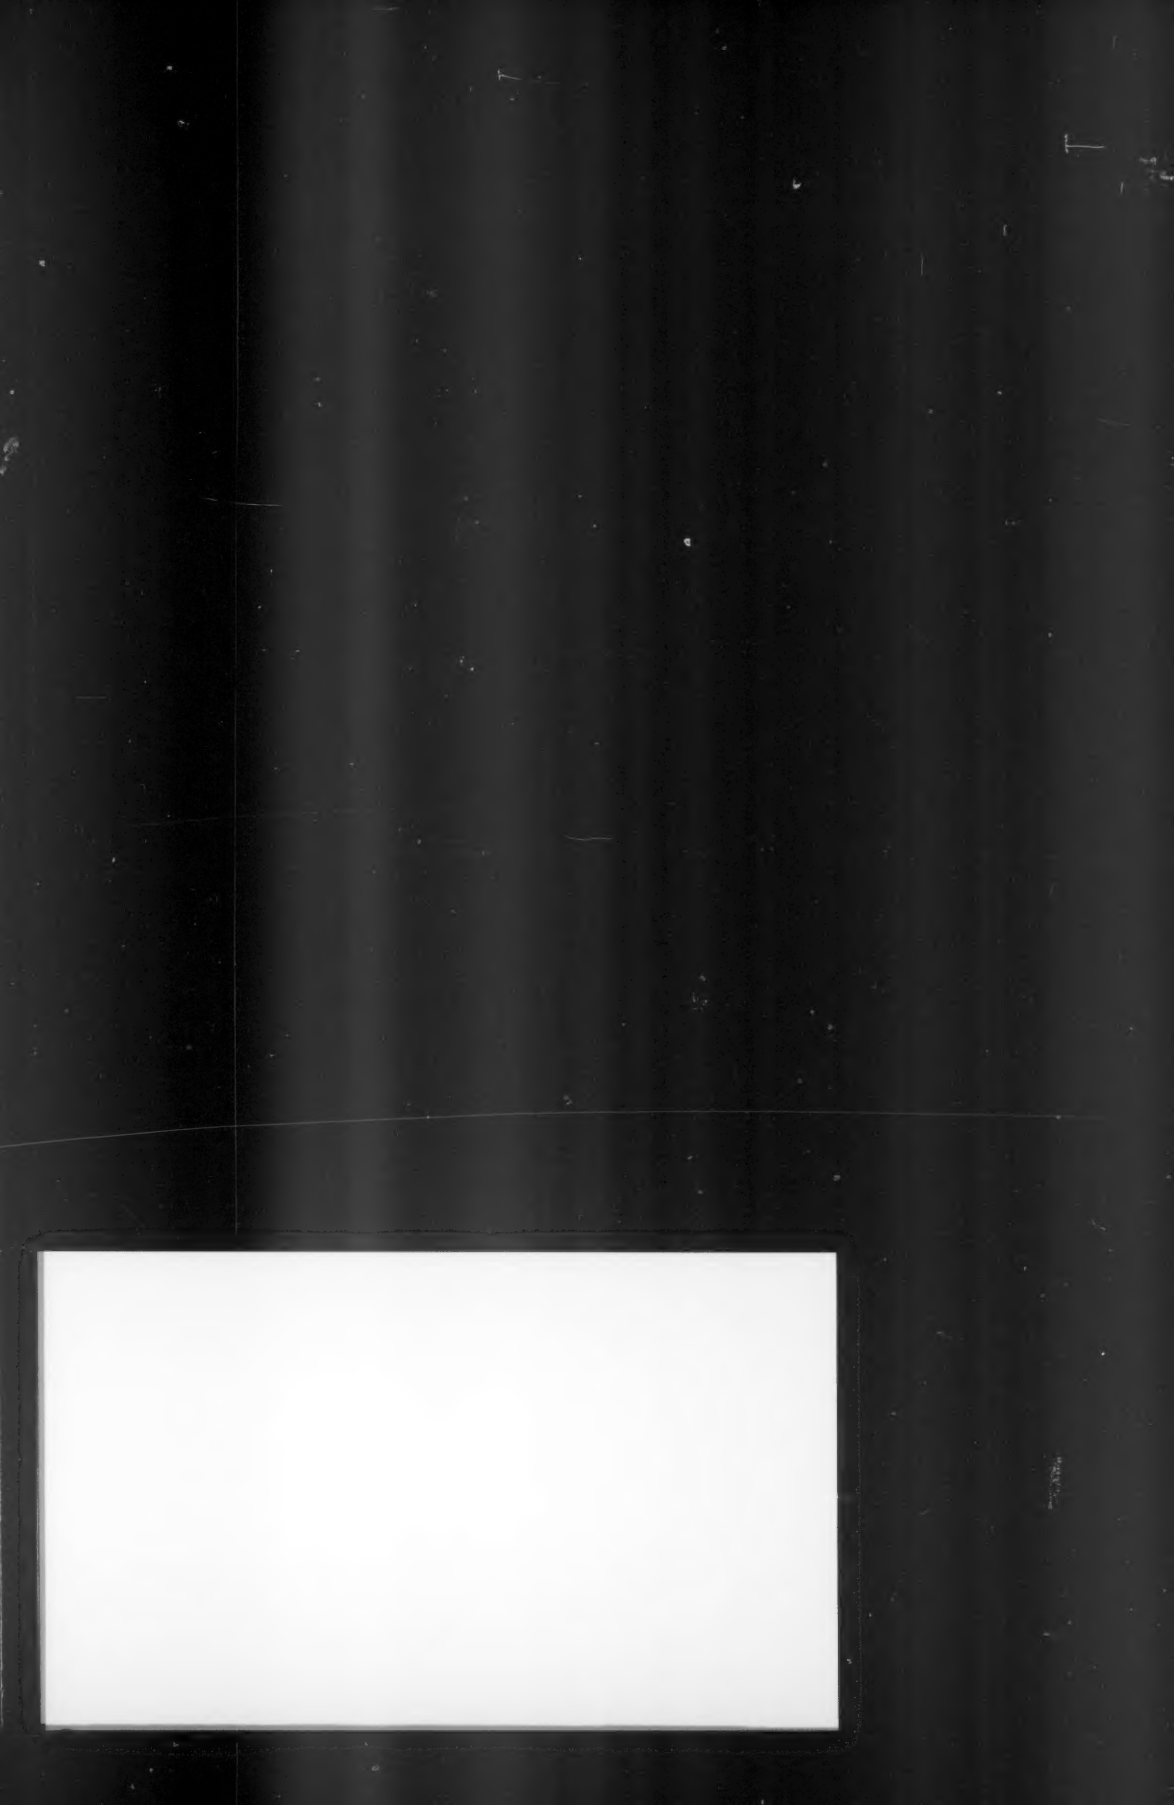
Preservation of renal function in chronic renal failure. *J.A. Whitworth, B.U. Ihle, G.J. Becker and P.S. Kincaid-Smith* 165
Effect of sulindac on prostaglandin synthesis in human and in cultured rat renal and vascular smooth muscle cells. *M. Sato, K. Abe, K. Takeuchi, M. Yasujima, N. Akiu, T. Saito and K. Yoshinaga* 185

Vol. 166, No. 2, February 1992

Late results after repair of complete atrioventricular canal. *K. Haneda, T. Togo, N. Sato, H. Ogata and H. Mohri* 201
Effects of intravesically administered verapamil HCl (calcium entry blocker) on the bladder function in unanesthetized rats. *O. Ukimura, M. Kojima, H. Itoh, S. Hosoi and H. Watanabe* 209
The influence of antihypertensive agents on circadian rhythms of blood pressure and heart rate in patients with essential hypertension. *M. Munakata, Y. Imai, J. Hashimoto, H. Sakuma, H. Sekino, K. Abe and K. Yoshinaga* 217
Right angular lesion and selective impairment of motion vision in left visual field. *H. Saito, S. Kanayama and T. Takahashi* 229
Effects of ethyl 4-chloro-2-methylphenoxyacetate on bile composition in golden hamsters. *N. Inomata* 239
Metallothionein of prostatic tissues and fluids in rats and humans. *T. Suzuki, H. Yamanaka, Y. Tamura, K. Nakajima, K. Kanatani, M. Kimura and N. Otaki* 251
Clinical analysis of ten cases with surgically treated brain stem cavernous angiomas *K. Mizoi, T. Yoshimoto and J. Suzuki* 259

Vol. 166, No. 3, March 1992

Lymphocyte subsets and mitogen induced proliferation in adjuvant arthritis. Part I. Migration and function of the peripheral T lymphocytes. *C.-L. Tsai and T.-K. Liu* 269
Lymphocyte subsets and mitogen induced proliferation in adjuvant arthritis. Part II. Changes in function and numbers of lymph nodes T lymphocytes. *C.-L. Tsai and T.-K. Liu* 281
Lymphocyte subsets and mitogen induced proliferation in adjuvant arthritis. Part III. Numbers and functions of T lymphocytes in spleen. *C.-L. Tsai and T.-K. Liu* 289
Lymph follicles and germinal centers in popliteal lymph nodes and other lymphoid tissues of germ-free and conventional rats. *H. Hoshi, H. Aijima, K. Horie, H. Nagata, T. Kaneko and T. Ikeda* 297
Acute toxicity of tri-n-butyltin chloride (TBTC) in the Syrian golden hamster. *S. Takagi, H. Mano, M. Tsunoda, H. Nakadaira, K. Endoh and M. Yamamoto* 309



U·M·I

VOLUME 166, ISSUE 4 SHOULD READ APRIL.

The effects of radical scavengers and leukocyte-depleted blood on reperfusion injury of extirpated rabbit lung. *N. Shimizu, Y. Miyai, M. Aoe, M. Nakata, H. Date and S. Teramoto* 321

Is there any effect of volcanic eruptions of mount Sakurajima on human lungs? —— histopathological investigation and measurement of intrapulmonary particulate deposits amounts. *M. Kariya* 331

Computer-assisted gait training (CAGT) of hemiparetic stroke patients: Whose recovery is most predictable? *R. Nakamura, K. Suzuki, Y. Yamada and T. Handa* 345

Scanning electron microscopic study on the three-dimensional structure of the collagen fibrillar framework in the chronic active hepatitis and liver cirrhosis. *H. Kawasaki and T. Ogata* 355

Three-lineage hemopoietic precursor cells and effectiveness of recombinant human erythropoietin in patients with myelodysplastic syndromes. *Y. Fukushima, Y. Kanno and A.B. Miura* 375

Peritoneal cytology in endometrial carcinoma. *K. Ito, Y. Inoue, K. Obata and K. Noda* 387

Intraoperative radiation therapy combined with hyperthermia against pancreatic carcinoma. *S. Yamada, Y. Takai, K. Nemoto, Y. Ogawa, Y. Kakuto, A. Hoshi, K. Sakamoto, Y. Kimura and M. Kobari* 395

Short Report

Changes of autonomic receptors following castration and estrogen administration in the male rabbit urethral smooth muscle. *T. Morita, N. Tsuchiya, T. Tsujii and S. Kondo* 403

Vol. 166, No. 4, December 1992

Severe infantile sialidosis —— The characteristics of oligosaccharides isolated from the urine and the abdominal ascites. *Y. Nakamura, Y. Takahashi, S. Yamaguchi, S. Omiya, T. Orii, A. Yara and M. Gushiken* 407

Pericentric inversion of chromosome 9 in prenatal diagnosis and infertility. *S. Uehara, Y. Akai, Y. Takeyama, T. Takabayashi, K. Okamura and A. Yajima* 417

Role of norepinephrine in the lack of reflex tachycardia after angiotensin converting enzyme inhibitor treatment. *A. Yagi, S. Ichikawa, T. Sakamaki, Z. Ono, K. Sato, T. Nakamura and K. Murata* 429

The microvasculature of the human bone marrow correlated with the distribution of hematopoietic cells. A computer-assisted Three-Dimensional reconstruction study. *K. Naito, N. Tamahashi, T. Chiba, K. Kaneda, M. Okuda, K. Endo, K. Yoshinaga and T. Takahashi* 439

Acrosin profiles of human spermatozoa recovered from the new sperm Prep™II filtration column. *N. Sofikitis, I. Miyagawa, P.M. Zavos, S. Inaga, A. Iino, T. Toda, T. Harada, Y. Mio and N. Terakawa* 451

Comparison of characteristics between frequent participants and non-participants in screening program for stomach cancer. *A. Fukao, S. Hisamichi, S. Komatsu, H. Shimizu, H. Satoh, H. Nakatsuka, T. Watanabe, S. Fujisaku, Y. Ichinowatari, S. Kuroda, Y. Ida, S. Suda, K. Kato and M. Ikeda* 459

Short Report

Brunnstrom stages and Wallerian degenerations: A study using MRI. *H. Watanabe and K. Tashiro* 471

Mortality among female practitioners of chanoyu (Japanese "Tea-ceremony"). *S. Sadakata, A. Fukao and S. Hisamichi* 475

Calphobindin I (annexin V) inhibits protein kinase C. *S. Shibata, H. Sato and M. Maki* 479
